

## **Best Cultural Project**

### **Future Yard by Architectural Emporium**

This creatively important project is clearly embedded in the community it serves and has become a key cultural asset. This is successful enterprise; necessarily utilitarian, but with architectural interventions that maximise its usefulness and that achieve more bangs per buck than many far more lauded venues could hope for. Future Yard has quickly become a cultural mainstay of Birkenhead. A destination to learn, develop and perform music for artists from all over the world. Reliant on a very modest budget, and the will and skills of its team, Future Yard is a beacon of the possible.
